

Clemenceau

This is an urban renewal project, involving the redevelopment of Avenue Clemenceau and the adjoining public spaces. Streets in urban centres have traditionally been treated as roads, with the car the mainstay of development projects. The municipality's objective was to convert these spaces by giving them a more urban feel, so that pedestrians and cyclists would take priority in areas bordered by numerous schools. A children's playground has been renovated and the public spaces re-naturalised.

LOCATION Saint Jean de Védas, 34430 [Hérault]

CLIENT Public | Saint Jean de Védas Commune

PROGRAM Urban renewal

COST 3 890 949€ excl. taxes

PHASE Delivered in 2015

MISSION Stages 0 to 6, from strategic definition to handover and close out
